

HAVANA AWAIT'S FIRST GONG IN FIGHT

Johnson and Willard Said to Be in Fine Condition Physically, Forty-Eight Hours Before the Fight Starts.

HAVANA, April 3.—Forty-eight hours before the world's championship battle, Jack Johnson and Jess Willard are declared to be in perfect physical condition. Johnson is ten years older, shorter and lighter, but weighs more than ever and is generally admitted to be Willard's master in the science of fighting. He is faster on his feet and with his eye. Whether he can make his science effective in the shape of blows, delivered in the right places, remains to be seen.

Johnson may change his usual tactics to pounding the body of Willard, who keeps himself covered rather in a loose and careless fashion. Willard, however, learned to snap a knee left to the face and body which is extremely effective on account of his enormous reach. It is believed it will be either a very short fight or a very long one. Willard's best chance to win is with a terrific smash landed in a mixup, in the early rounds or in a slow scuffling on the older man. It is largely a question of whether Willard is advanced enough to meet Johnson's going back.

Johnson will weigh more than in any previous fight. Today he weighs about 228. Willard weighs about 240. Each carry into the ring five to seven pounds of surplus flesh, to have something to burn up during the battle.

Though Johnson may have some difficulty in landing his left jab to Willard's face on account of the cowboy's five and a half inch advantage in height, the Negro may rush at his opponent, flailing on getting past Willard's comparatively mediocre defense for a knockout while strong and fast. If he fails he may resort to the crafty weaving-defensive system.

Where much depends on "virtually unknown endurance of each man. All sporting men realize there is a physiological as well as physical side of the fighting game and many believe Johnson has the advantage in this respect. He has always been confident and has shown an ability to keep his head in time of stress.

GUNFIRE AND EIRDS

COLOGNE, April 3.—Bird and animal lovers have made an investigation of the effect upon both domestic and wild creatures of gunfire, especially heavy cannonading. They find that for two, and sometimes three days, the birds are terribly excited and fly back and forth in bewilderment, and that cats and dogs live in the darkest places they can find. At the end of that time, however, their excitement subsides and they become absolutely impervious to the noise.

FREE RIDES FOR SOLDIERS

BERLIN, April 3.—More than five million members of the army were carried free on the omnibuses in Berlin during 1914, according to a statement of the company which operates the vehicles. Notwithstanding the reduction of the auto lines by two thirds because of the war, the concern was able to pay a dividend of 7-12 per cent.

Doctors Said He Had Dropsy

Some time ago I had an attack of dropsy which finally settled in my kidneys and bladder. I doctored with the doctors and they claimed I had dropsy. I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months and the annoying symptoms caused me a great deal of trouble and pain. I was hardly able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp-Root a trial and after taking several bottles was able to resume my work again. I cannot say too much in praise of your Swamp-Root as the results in my case were truly wonderful.

Yours very truly,

ROBERT BALLARD,
Mansfield, Pa.
Sworn to and subscribed before me this 27th day of May, 1912.
RAY C. LONGBOOTHUM,
Notary Public.

SEALS BAT OUT VICTORY

SAN FRANCISCO, April 3.—Christian, the Oakland manager, played chess with his men, attempting to defeat San Francisco, but none of his moves were effective. After four home-runs had been made off Ables, Malarkey, Christian himself climbed to the mound, when the Seals promptly knocked another home-run.

Oakland	6	12	2

Batteries—Ables, Malarkey, Christian and Kruln; Bonham and Schmidt.

Venice-Salt Lake postponed, rain.

The British Admiralty office reports only four German warships unaccounted for, and two of these, the cruisers Strassburg and Bremen, are believed to be in some German port. Other two are Karlsruhe and Krasprinz Wilhelm.

BORDERLAND IN NEED OF MORE REPAIRS

Fund of \$10,000 Is Not Sufficient to Put Highway in First Class Condition For Exposition Travel.

PHOENIX, April 3.—How to increase \$10,000 to a fund sufficient to put the Borderland highway within the borders of Arizona, in first class condition, is the problem that is now facing State Engineer Lamar Cobb.

The legislature appropriated \$10,000 for the repair of the Borderland and left it to the state engineer to apportion it among Ruma, Maricopa, Pinal, Pima, Santa Cruz and Cochise counties. Preliminary to making his apportionment, Engineer Cobb has traversed the route from Phoenix to Ruma. This week he will go over the Borderland from Phoenix to the eastern border.

"Ten thousand dollars is not very much," said the engineer. "But the supervisors of all the counties realize the importance of having the Borderland in good shape for the tourists traveling across Arizona on route to the expositions. The counties themselves probably will appropriate fairly large sums and in a few months the Arizona section of the Borderland will be as good as, if not better than, any."

Work has again been started on the bridge across the Gila all Antelope Hill, near Wellton, Yuma county. If all goes well it will be open to traffic July 1. All the material is on the ground and convicts who have had great deal of experience in Pinal, Maricopa and Cochise counties are employed on the job.

At one time the Antelope Hill bridge was approximately ten per cent complete but nearly all the work accomplished was washed away by the Gila. It was only recently that the flood waters subsided sufficient to allow a resumption of operations.

Advices from Florence are that more than 20 feet of the south approach to the state bridge over the Gila at that place has been washed away. Several times in the last few months the north approach has been washed out. It is hoped that a few days' work will be sufficient to repair the present damage.

BISBEE HIGH IS AGAIN DEFEATED

Douglas Repeats Win in Game at Border City. Game Is Closely Fought.

Bisbee high lost to Douglas again, yesterday afternoon, at Douglas, the final tally showing 6 to 3 in favor of the border city students. The game was fought hard all the way and the Bisbee school boys showed marked improvement over their form in the first game. However, a big gain must be shown if the boys are to cut much of a figure in the series to be played during University Week at Tucson.

For Bisbee the best work was done by the guardians of the outer garden. Jeffries performed rather well on the mound, although touched for ten safeties. Cochran hit well but was a bit slow in handling the ground balls. Hudson, Bisbee's pinch hitter, was a little light with the willow. Cook showed a considerable improvement over his previous form, both in hitting and fielding. "Shortie" Newman pulled several balls out of the air in a manner which would have done credit to a professional. Schmalzel and Krigbaum, at second and short, showed nice team work. Bisbee's hopes were shattered in the eighth.

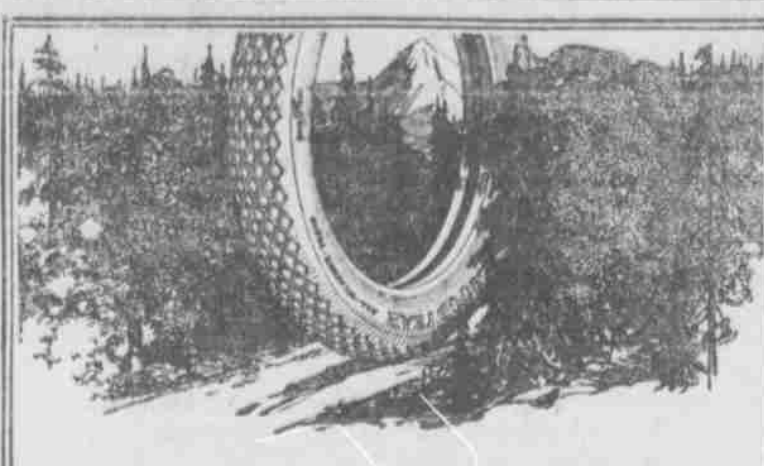

Among the rosters from Bisbee who made the trip was Miss Malm of the high school faculty, an enthusiastic supporter of the game.

Bisbee's lineup: Newman cf, Hudson lf, Krigbaum ss, Schmalzel 2b, Cochran 3b, Cook rf, Stamper 1b, Jeffries p, Doyle c.

FAMOUS LITIGATION OVER CHILD IS CONCLUDED

BERLIN, April 3.—The famous Kwielecki case, after having occupied the German courts in various forms for 15 years, has probably at last reached its end through a decision of the highest provincial court at Breslau. Young Count Stanislaus Kwielecki was born — if the decision of this court be correct — at Berlin in January, 1897. His father was owner of a large estate in the province of Posen, and up to the birth of Stanislaus there was no male child to inherit it. The collateral heirs had every prospect of inheriting it, as they thought, inasmuch as the countess was growing in years and had borne no child for ten or fifteen years. Then she disappointed their calculations by coming to Berlin and bearing a son. The collateral heirs, however, had their suspicions and began quietly to

The Tire That Was Never Skimped

You know the reason for Good-year success. It's the basic reason for every lasting success. We simply gave the best.

We gave it when we held a minor place. We built a superiority, exceeding every rival in five important ways.

We gave it in days of small output—when these costly extra features compelled a price one-fifth above our rivals.

Men Found Out

Users proved that these tires saved trouble, gave greater mileage, cut down cost of upkeep. They told others, and Goodyear sales grew fast. Soon Goodyears reached top place in Tire-dom, and they've held it ever since.

Last year we sold about one tire for every car in use. We sold 14 times as many as we sold in 1909.

Prices Down

With multiplied output cost came down. Again and again we cut prices. Our last big reduction—made February 1st—was the third in two years, totaling 45 per cent.

Yet Goodyear Fortified Tires are built better than ever. We spend \$100,000 yearly learning ways to improve them. And they still retain those five great features, found in no other tire that's built.

Don't you think it time now that you found out what such tires mean to you? Any dealer will supply you.

rather evidence to substantiate them. Finally they brought suit in a Berlin court, and a highly sensational trial followed, in which the chief witness was one Frau Meyer, from some place in Galicia, who claimed that Stanislaus was her illegitimate son bought from her to be used as a supposititious child.

After the collateral heirs had lost their case in several courts the Meyer woman herself brought suit to recover the child, and her case has been passing through the mills of the law in various forms for some years. The Breslau court said in rendering its decision that she had not estab-

lished her claim, although admitting that many circumstances spoke in her favor. In further explaining its decision the court used the following queer argument: "The complainant is trying to deprive the child of substantially better conditions of life than she can give him, which does not throw a favorable light upon her maternal feelings."

The police committee of the New York Stock Exchange is investigating recent sensational advances in Maxwell Motor shares. In three months common advanced 17 points and first preferred 33 points.

Wonderful Blood Remedy That Works in the Tissues

The Very Latest Theory About How and Why the Blood is Disordered.

S. S. S. Means Pure Blood Which Insures Long Life and Health.

The great experts in Chemistry and Physiology now declare what has all along been contended by the Swift Laboratories—that the germs of blood disorders lodge in the interstices of the tissues.

And herein is where S. S. S. goes to work rapidly, effectively and with wonderful noticeable results. This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the elements of wheat, roast beef, and fat and the sugars that make up our daily ration.

As a matter of fact there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply, why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.

And in regenerating the tissues S. S. S. has a rapid and positive antidotal effect upon all those irritating influences that cause rheumatism, sore throat, weak eyes, loss of weight, thin pale cheeks, and that weariness of muscle and nerve that is generally experienced by all sufferers with poisoned blood.

Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright, and energetic, but you will be the picture of new life. S. S. S. is prepared only in the laboratory of the Swift Specific Co., 301 Swift Bldg., Atlanta, Ga. Who maintain a very efficient Medical Department, where all who have any blood disorder of a stubborn nature may write freely for advice.

S. S. S. is sold everywhere by all drug stores. Beware of all attempts to sell you something "Just as good." Insist upon S. S. S.

WE INVITE THE STRICTEST INVESTIGATION
